### **Objectives of the DR2:**

- Testing the design of the Trial scenario. Final check of the scenario / validation of the scenario script.
- Checking that the changes and advances made in the development of the tools are in line with the reality of the trial.
- Training on the use of the tools.
- Function test connectivity and data exchange with and between the systems (as needed).
- Technical play-through based on sequence of the scenario (test-table according to the script/scripts).
- Discussion on data collection plan and prepared Questionnaires.
